## About the University

The name, Acharya Nagarjuna University is quite significant in that the great Buddhist preceptor and Philosopher Acharya Nagarjuna founded a University on the banks of river Krishna some centuries ago and made it a great centre of learning, attracting a large number of teachers and students from distant parts of the world. Acharya Nagarjuna University, an affiliating University established in 1976, started with only 10 post-graduate courses in the University College. Since then, it has achieved tremendous progress through quantitative expansion and qualitative improvements on various academic fronts. This has been possible by the efforts of its dedicated faculty, an efficient team of supporting staff and high quality student input. The Acharya Nagarjuna University at present offers post-graduate education in 47 courses besides post-graduate courses in affiliated colleges.

## About the College

The college was started in the year 2009 with Five Departments ECE, EEE, Mechanical, Civil and Computer Science. The college has good infrastructure facilities with highly qualified staff. The college also has well furnished hostel facilities in the campus for both girls and boys with 24 hours health facilities. The hostels are also furnished with Wi-Fi facilities to help the students master the advantages of latest technologies.

## About the Department

The Department of Electronics and Communication Engineering was started in the year 2009 with an intake of 60 students in to B.Tech programme. The department has well equipped laboratories and a research

centre. The department is handling major research projects from ISRO and DRDO. The department has started M.Tech programme in the year 2012 with an intake of 18 students in to M.Tech programme. The department has also undertaken research programme in the year 2011.

## Theme of the Conference

The National Conference on Communications, Antennas and Signal Processing (NCCAS) will provide an excellent platform for sharing knowledge and results in theory, methodology and applications of Electronics and Communication Engineering. This conference looks for significant contributions to all major fields of the Electronics and Communication in theoretical and practical aspect. The aim of this conference is to provide a platform to the researchers, PG students and practitioners from both academia as well as industry to meet and share cutting-edge development in the field.

## Call for Papers

Original and unpublished review/research papers are invited from research scholars, students, academicians, practicing engineers and scientist for presentation in the multidisciplinary areas of Electronics and Communication Engineering on the following topics but not restricted to : Antennas, Communications, Advanced VLSI Systems, Signal Processing, Image Processing, Speech Processing, Embedded Systems, Wireless Sensor Networks, Network Security, Optical Networks, Photonics, Cognitive Radio etc.,

## Paper Submission

Authors are requested to submit their papers in IEEE two column format (Maximum 5

pages) before 20<sup>th</sup> February, 2017 to [nccas2017@gmail.com](mailto:nccas2017@gmail.com). Conference updates will be hosted in the University Website.

## Accommodation

Accommodation is available in University Guest house on First Come First Serve on payment basis.

## Journal Publication

The presented papers in the conference will be published as special issue in ANU Journal Of Engineering And Technology with ISSN Number.

## Registration fee
