

ACHARYA NAGARJUNA UNIVERSITY

ఆచార్య నాగార్జున విశ్వవిద్యాలయం

Accredited by NAAC with 'A' Grade

Title of the Practice: Promoting Extra-Mural Research

Objectives of the Practice: To bring Acharya Nagarjuna University on to the research map of distinguished research institutes and organisations.

Need Addressed and the Context: The research potential prevailing in a number of advanced research organizations needs due recognition and suitable reward in the form of award of research degrees. If this proposition is to materialize, Higher Educational Institutions should come forward in bringing the research potential of organizations and the research thrust of a researcher at a common meeting point to work for research output. Acharya Nagarjuna University has initiated a research registration/admission called “Extra Mural Research Admission” for the benefit of an individual and an organisation simultaneously.

The Practice: Under this scheme, the researcher working in a national institute/laboratory with eligibility for guiding students can become a Research Supervisor of University. The research organization /laboratory can be an established institute carrying out research. The candidate shall apply for research admission in a particular discipline and the institute or the laboratory shall come forward and submit with substantial evidence about its feasibility to provide the research facilities to the candidate for carrying out research activity. The completed research work shall be submitted to Acharya Nagarjuna University for the award of research degree.

Evidence of Success: This scheme worked out very well in subjects like Bio-technology, Microbiology, where the lab facilities are limited and the available academic expertise is adequate.

Resources: To implement the scheme, a thorough and consistent interaction between the faculty and the outside organization is the only needed resource, so that the research activity of the campus progresses as per the schedule.

Title of the Practice: Medical Reimbursement for Staff

Objectives of the Practice: To provide secured financial assistance within a ceiling prescribed for health problems of the staff of the University.

Need Addressed and the Context: In the light of various risks to which an individual is likely to be exposed, it is a minimum responsibility on the part of the organisation where the individual is working/worked to provide support for medical treatment essential for his/her health complaints, more so in the case of risky diseases. With this motivation Acharya Nagarjuna University has initiated the principle of extending medical reimbursement facility to all its staff, pensioners and NMRs with effect from 01-01-2008 to the tune of up to Rs. 1,00,000/- for the staff including family and upto Rs. 50,00,00/- for the retired employees and NMRs.

The Practice: The University processes the bills for medical expenditure incurred by the employees/pensioners or their family members in hospitals recognised by the University or Government of Andhra Pradesh for diseases specified in Government orders and arranges for reimbursement of expenditure within the ceiling prescribed after scrutiny by its Medical Advisory Committee.

Evidence of Success: The University spends about Rs.50 Lakhs every year towards implementation of this practice.

Resources: The University meets this commitment from its own resources

4.4.2 – Procedures and policies for maintaining and utilizing physical, academic and support facilities - laboratory, library, sports complex, computers, classrooms etc.

Since the inspection of the university there is a standard operating process followed in Acharya Nagarjuna University. The Engineering Section of the University will take up the maintenance of the buildings such as academic blocks, administrative blocks, guest house roads etc. The engineering section will also look after the power maintenance in the university. Prior to the starting of the financial year the departments submit their budget requirements towards maintenance of the university to the finance office and the executive council will approve the budget based on the funds available with the university. Maintenance Department at the engineering section of the university will also look into the restoration of RO plants including testing of water quality, fixing of LCDs and replacing green and whiteboards when required. Broken glass panes of windows in classrooms are replaced periodically. Regular Cleaning and mopping work is done by floor attenders. Registers are maintained to record the work. The University has dedicated electricians in the campus round the clock to address power breakdown. Supply of electricity during power breakdown through generators is provided. In the university regular checks of equipment are carried out in all the laboratories. As per the requirement, minor repairs are carried out by lab assistant/s. Major maintenance works are outsourced as per procedures of the institution. The Engineering section of the university will also look in to the other facilities maintenances such as plumbing issues, regular cleaning to ensure hygiene in the campus and safe toilets, RO treatment plants, garden works, Regular spraying of Mosquito repellents is carried out on the campus, including classrooms, labs, seminar halls etc. and other fumigation works are carried out in the library. The security of the university campus is out sourced by tender process. The Hostels are also maintained by the University engineering section. The canteen and cafeteria of the university are out sourced. The university authorities will ensure the best in maintaining the campus with in the resources available.
