About the University

Acharya Nagarjuna University is named after Acharya Nagarjuna - one of the most brilliant preceptors and philosophers - whose depth of thought, clarity of perception and spiritual insight was such that even after centuries, he is a fount of inspiration to a vast number of people in many lands. The University is fortunate to be situated on the very soil where he was born and had lived, a soil made more sacred by the aspiration for light and a state of wholesomeness by generations of students. It is the profound wish of the people of the area that this University one day raises to the level of the yesteryear Nalanda and Taxashila.

Established in 1976, the University has completed 45 years under the stewardship of successive Vice-Chancellors. ANU is situated between the cities of Vijayawada and Guntur in Andhra Pradesh on Calcutta and Chennai National Highway (N.H-5), its Campus is spread over an area of 270 acres.

National Assessment and Accreditation Council has accredited Acharya Nagarjuna University with 'A' Grade (3.08 CGPA). ANU has been certified under ISO 9001-2015 in August, 2016. In 2016 University got Time Higher Education World University Rank 801+ and only 33 Universities in India got placement in TIMES ranking. And in South India, among public Universities, ANU secured second rank. In BRICS (Brazil, Russia, India, China, South Africa) (in QS Ranking), ANU secured a Rank in 201-250 Bracket. In Web of Universities World Ranking, ANU secured 3877, and stood Second in Andhra Pradesh. In 4ICU World Ranking, ANU Secured a Rank of 4483, and stood Second in Andhra Pradesh also secured National Institute Ranking Framework (NIRF) Rank of 101 in the bracket of 101 to 150 in entire India. In August 2017 ANU bagged 25th rank among all Indian Universities by Outlook - Drishti University Survey 2017. They announced top 30 Universities in entire India. More specifically in student improvements category ANU highlighted with 7th Rank in entire country. ANU has by virtue of Academic competence, become a global University with 500 students from 20 Countries studying in the campus.

About the Department

The Department of Economics is one of the biggest and oldest Departments in the University established in the year 1976 with one Professor and three lecturers. At present 01 Associate Professor and four Guest faculty members in the Department. The Department offers with an intake of 45 students. Thus every year, nearly 90 Post-graduate students are being trained in the Department. The alumni of the Department are being placed in higher positions in Administration, teaching and research fields.

The Department also offers full-time and part-time research programmes leading to M.Phil., and Ph.D., Degrees. So far more than 125 M.Phil., and 150 Ph.D., Degrees were awarded in the Department. Among the other dignitaries visited our Department were Noble

Laureate Sir John Hicks (21-01-1982), Dr. Ursula Hicks and Nobel peace prize winner Shri Mohammad Yunus (27.12.2017). There are a number of students produced by the Department who are working in high esteemed position like World Bank, RBI, Income Tax Department, Indian Railways etc.

The Department has successfully organized the 100th Indian Economic Annual Conference during 27th – 30th December 2017 inaugurated by his Excellence Shri Ram Nath Kovindji President of India along with Honorable Chief Minister of Andhra Pradesh and his Excellency Governor of A.P. The worldwide renowned Economists, Prof. Kausik Basu President of International Economic and other popular Economists of National and International repute have addressed the gathering. The 4th Indian Association of Social Sciences Institutions Annual Conference in December 2017 and also organised the 33rd India Society of Agricultural Marketing annual Conference on November 2019 under the Chairmanship of Prof. R. Radha Krishna, Chairman, Centre for Economic and Social Studies.

About the Seminar

India's recent impressive growth performance during the last two decades or so has been led by services which now account for over 58 per cent of the country's GDP, although it employs only 26 per cent of the workforce. On the other hand, agriculture contributes to only 14 per cent of GDP but accounts for nearly half of the workers. The shares of manufacturing in GDP and employment are 16 per cent and 13 per cent respectively. This unbalanced Indian growth pattern is contrary not only to the historical experiences of the present-day developed western countries but also the recent experiences of the late industrialising countries of east and south-east Asia where manufacturing has been engine of growth. Although the growth rates in India slowed down after 2011-12, the growth remained services-led. The sustainability of this pattern of service-led growth has been widely questioned. It has generated unsustainable trade deficits primarily, due to the growing imbalance between the structure of domestic absorption and structure of domestic consumption.

Manufacturing-led growth is widely considered to be the alternative to this unsustainable growth path. At present level of India's per capital income, manufacturing-led growth can generate economy-wide productivity increase and can have spillover impacts for both agriculture and services. At the same time, it should be kept in mind that today's manufacturing is much more technology-intensive and labour-management pattern is also considerably different from earlier period. As such present strategies need to be innovative. The labour force is increasingly becoming educated and hence the shifts of labour force from rural/agricultural sectors to non-agriculture ones will involve more and better planning, including planning for migration and urbanization. Women's proportion is likely to increase considerably in future labour force. The shift of labour from agriculture to manufacturing will contribute not

only to increase in per capital income in agriculture, but will also have spillover effects on industry (manufacturing and construction) and services. Such a sectoral pattern of growth will be accompanied by creation of more productive jobs and is likely to be sustainable.

Sub Themes:

1. Agriculture, Manufacturing and Service Sectors and India's GDP
2. Structural transformation: How did we managed the sectoral shift-Agricultural, Manufacturing and Service Sectors
3. Sectoral linkages and growth prospects
4. Sectoral patterns of productivity growth
5. Demographic Transformation, Migration and urbanization
6. GOI's recent initiatives to boost sectoral growths
7. Agrarian Crisis, Farmer's Indebtedness and Priority sector lending to agriculture
8. The importance of irrigation in promoting growth and reducing fluctuations in output.

CALL FOR PAPERS:

Paper presenters may submit the abstract of their paper in about 500 words, along with the Registration Form on or before 10th March, 2021. Full length papers, one in hard copy and other in soft copy may be sent to the Director on or before 20th March, 2021. The paper should not exceed 10 pages in A4 size neatly typed in 2h spaces with font-Times New Roman (Size 12). All registered abstracts accepted for presentation are in seminar proceedings. Selected papers will be published in ISBN book based on plagiarism. The participants intending to present papers in the seminar are requested to submit a soft copy of the Abstracts along with key words to anueco2021@gmail.com

Registration

Academicians, PDFs, NFSs Registration Fee : Rs. 800/-
