

Registration form for NSRTN-2020

Name :-----

Designation :-----

Address :-----

Phone :-----

Email :-----

I will attend the Seminar : YES/NO

Payment Details

Registration Fee :

Students/Scholars : 300/-

Faculty : 500/-

Corporate : 1000/-

Accommodation : NOT AVAILABLE

Registration Fee - Spot Registration / send to

Director, NSRTN-2020; IFSC: ANDB0001508

A/c No. 150811100002412

Important Dates :

Abstract/Full Length

Submission Opens: 22nd December, 2019.

Abstract/Full Length

Submission Closes : 26th January, 2020.

Full papers submitted will be published as

book chapters with

ISBN : 978-935396376-7.

Seminar dates 30th & 31st January, 2020

NATIONAL SEMINAR

ON

RECENT TRENDS IN NANOSCIENCE

AND

NANOTECHNOLOGY

(NSRTN-2020)

30th & 31st January, 2020

Organized by

DEPARTMENT OF NANOTECHNOLOGY

University College of Sciences

Acharya Nagarjuna University

Nagarjuna Nagar, GUNTUR - 522 510

About Acharya Nagarjuna University :

Acharya Nagarjuna University has completed four decades of its existence. It was inaugurated on 11th September 1976 by the former President of India, Sri Fakruddin Ali Ahmed. It has achieved tremendous progress through quantitative expansion and qualitative improvements on various academic fronts. The research programs carried out in various departments cover both fundamental and applied fields of knowledge. The University thus has been balancing the old values with modern developments, so that it has been living up to its motto that everything is established in Truth. "SATYE SARVAM PRATITISHTITAM" by presenting an integral vision of education and holistic approach to learning.

The Department :

The Department of Nano-Technology is established in 2007-08 offers 5-year Integrated course. This course is offered for the first time in the coastal area of Andhra Pradesh. The department is having committed band of teaching faculty and exclusive laboratory facilities.

Objective the Seminar

- Nanoscience and Nanotechnology is a blossoming and important area of research and development with a wide range of application.
- There is a growing need for skilled personal trained in nanosciences, especially in spectral

- This intensive Seminar will give the participants a valuable opportunity to gain knowledge and practical experience in data processing, spectral analysis and interpretation in wide research areas. The use of different research tools (UV-Vis-NIR, FTIR, NMR, X-Ray, Microscopy and elemental analysis) for the determination of molecular structure. These skills are essential for academicians, researchers and students in different disciplines.
- The present Seminar is proposed to provide a dynamic platform for the distribution of the knowledge and of views in this rapidly expanding field of nanoscience and nanotechnology and it will to perform structural elucidation of materials for industrial applications.

Topics to be covered

During the Seminar, concept and applications of different nano structured materials and other materials analyzed by different techniques will be present

Abstracts

**We invite abstracts for ORAL presentation
Full Length papers as BOOK CHAPTERS**

All the selected full length papers will be published in conference proceedings as Book Chapters with an ISBN No. 978-935396376-7. An

Resource Persons

1. **Dr. Divya Ootoor**
Department of Chemistry
Savitribai Phule University, Pune.
2. **Dr. Rosemary M J Joseph**
Scientist
HLL Lifecare Ltd.
Thiruvananthapuram, Kerala
3. **Dr. Nimai Mishra**
Department of Chemistry
SRM University, AP
4. **Dr. M. Pardha Saradhi**
Department of Chemistry
SRM University, AP
5. **Dr. Ch. Ramakrishna**
International Research Professor
Department of Chemistry
Yeungnam University, South Korea
